

Clark Forklift Parts

Clark Forklift Parts - Currently, there are over 350,000 Clark forklifts performing worldwide, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with components covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very outstanding international support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark has a relentless objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the particularly economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most effective approaches of manufacturing facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering program combines modern product improvement and offers superior client support and service within the industry.
