

## TCM Forklift Parts

TCM Forklift Parts - In the global business of material handling, lift trucks play a major role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread globally.

In the year 1949, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply referred to as TCM Corporation. Throughout the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM began constructing lift truck manufacturing sites outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes numerous models of industrial trucks with over 50 years of accumulated technology and expertise, making their products recognized and used all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading business.
