

Rockwell Parts

Rockwell Part - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working within an environment that supports the highest integrity with empowered teamwork, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and offering a safe atmosphere for their staff to work in. In addition, they have applied numerous programs in the corporation to help convey these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever comments or questions, as they are happy to promote and share this policy with a greater understanding of their efforts. They are really dedicated to preserving and improving the surroundings. AxleTech has an EHS program that not just protects the natural environment but which also actively protects their neighbors and employees also.

AxleTech specializes in the manufacture and designing of planetary axles meant for both commercial and military applications, that could consist of anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specially designs axles to meet specific application demands. They have over one thousand different axle specs in their existing offering. With more than 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in various military and commercial applications. They offer complete axle assemblies for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product selection.
